Nurse News

During our Health Safari in September Dental Screening was done for children in K-6th. At that time 18 children were found to have serious dental problems and an additional 110 children were found to have cavities that needed attention. Letters will be coming home early in December if your child was found to need dental attention.

PARENTS: If you are a military retiree with dependent children under 16 years of age please call the nurse at 456-9842 for information regarding dental care that may be available for your children.

PARENTS: If you have dental insurance or ACCHS I urge you to make arrangements for your child to have their dental check-ups on a regular basis.

Thank you,
The nurse

Fun, Fun, Fun!

Recently the Junior High went to the Xavier Mission and the Tucson mall. This trip was a reward for those students whose behavior has been exemplary during this marking period. Approximately 100 students went.

PLAYER'S LIFE

HERE'S THE LIFE OF BASKETBALL PLAYER 11

Shiloh is 13 years old, he was born in Florida in 1980. In 1984 he moved to Arizona where he's lived since. According to him, they lost to Naco because they couldn't make the shots. They win when the whole team plays a good game and works together. One really good thing is all the players get along, and he feels they'll all be better next year, because they have more experience since most of the players are in 7th grade. In Shiloh's free time he plays sports. He prefers baseball even though he plays basketball more.

2nd Semester Electives...

THIS SEMESTER THE ELECTIVES WERE ART, P.E., HUNTERS SAFETY, AND LIBRARY. LAST SEMESTER JOURNALISM WAS AN ELECTIVE BUT THIS YEAR FIVE STUDENTS SIGNED UP FOR THE CLASS. NOW IT IS LIKE A JOB FOR US. WE WILL BE WORKING TO GET THE NEWS TO PUT OUT THE PAPER.
